

## Creighton Model FertilityCare®System

If you or someone you know has experienced:

- Infertility and/or repetitive miscarriages
- PMS (premenstrual syndrome)
- PCOD (Polycystic Ovarian Disease)
- Menstrual Cramps (including teens)
- Abnormal Bleeding
- Postpartum Depression
- Premenopause Symptoms

...then we want to share the latest women's health science, the Creighton Model FertilityCare®System with you!

Join us to discover what every couple *needs* to know and what every woman has a *right* to know. The Creighton Model FertilityCare®System of Natural Family Planning (distinct from the Sympto-Thermal method) not only provides a method that helps women and married couples value, respect and understand their fertility, but also identifies, treats, and heals underlying causes of reproductive and gynecological abnormalities. To learn more about this exciting new women's health science, please contact:
